

## eProposal & Hyatt

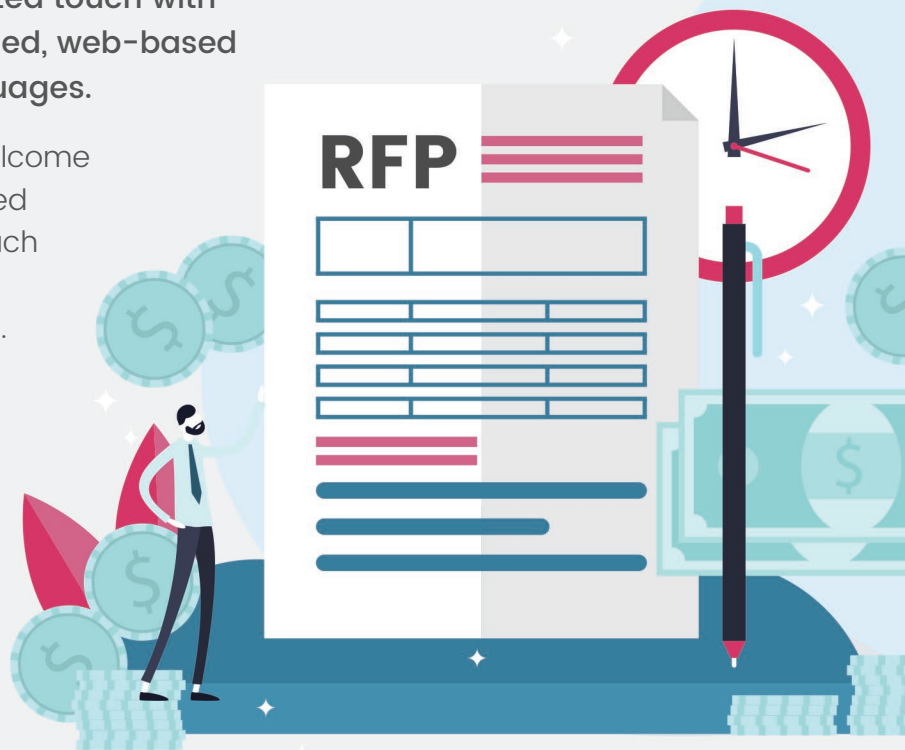

### Build, monitor and close RFP business effectively

eProposal for Hyatt is designed to help dramatically increase group and event bookings by responding to RFPs in a matter of minutes.

Quickly deliver a contactless, personalized touch with media-rich RFP replies through a branded, web-based presentation available in multiple languages.

Create impactful proposals with unique welcome messages, personalized video, pre-designed digital content and commonly used files such as floor plans, audio/visual overviews and more, all readily available at your fingertips.

Cut through the noise and bring that face-to-face personal experience everyone demands to a fast and effective online proposal.

### Highlights

#### BUILD QUICKLY ON THE FLY

From anywhere, you can easily add pre-designed descriptive overviews and detailed specifics of your meeting and event space. Access and add commonly used files, videos, floor plans and more.

#### PERSONALIZE YOUR PROPOSAL

Consumers are demanding a personal touch and seamless experience for any type of purchase. Tailor each sales proposal with compelling video content to help you stand out in one of the most challenging environments.

#### MULTI-LANGUAGE OPTIONS

Customize each proposal based on your prospect's native language. eProposal supports over 30 languages.

#### RESPOND TO RFPs IN MINUTES

Dramatically increase group business opportunities and engage with your prospects faster with personalized, media-rich proposals.

#### REAL-TIME NOTIFICATIONS

Be informed with real-time notifications. Inbox alerts notify you the moment a prospect opens your proposal, allowing you to reach out directly when the event is top of mind.

#### RFP TOOLKIT INTEGRATION

Each time a new RFP is submitted through [hyattmeetings.com](https://hyattmeetings.com), Hyatt Envision automatically creates a new referral, which then allows you to use eProposal to quickly respond to the leads with the click of a button.

## eProposal & Hyatt

Build, monitor and close RFP business effectively

FEATURES	EPROPOSAL & HYATT
Sales & catering integration	eProposal integrates directly with Hyatt Envision to easily manage and convert your leads to definite bookings.
Activity dashboard	Easily view all activity and views received on your proposal.
Digital content library	From anywhere, easily add pre-designed descriptive overviews and detailed specifics of your meeting and event facilities. Access and add up to six attachments of commonly used files such as floor plans, menus, audio/visual overviews and more.
Videos	Quickly embed video in your online proposals. Store a collection of videos in eProposal and easily add more at the click of a button or repurpose for future use.
eCard	eCard allows you to send a personalized message in a beautifully engaging HTML format. Use this feature to send acknowledgments, turn downs, proposal reminders, pre arrival messages, thank yous and more. eProposal includes one custom eCard.
Multi-format outputs	When you're ready, publish a private and personalized micro-site of your event proposal so your prospect can view and share with decision-makers.
Customizable PDF	Allow your prospects to customize and download your proposal in a PDF for easy sharing.
Real-time alerts	Receive instant notifications once your proposal or eCard link has been viewed and see the total times viewed. Follow up notifications are sent if the proposal or eCard has not been viewed within a specific period of time.
Multi-language	Build and send proposals in multiple languages. eProposal supports over 30 languages.
Multiple proposal modules	eProposal automatically includes a one-page marketing document that can be used for repeat clients, and also a multiple page version for larger groups - all highlighting key features of your hotel and hotel services. Additional templates can be added on.
User access	Allow an unlimited number of users to access eProposal.
Multi-media tour	Upload custom videos and up to 20 images to incorporate multi-media and photo tours within your proposals.
Social media	Increase guest engagement by including links within your proposals to drive guests directly to your hotel's social media pages.
Mobile-responsive	eProposal is fully responsive no matter the device you're using.
