# Cendyn™

Catering

Manage specialty, catering, and event menus with ease.

Digitally showcase group and social event menus, manage in real-time, and eliminate paper with touchless options and custom URLs.

☑ **Visual selling**

Visually rich and fully interactive design, content, and imagery.

☑ **Promotion upsells**

Promote premium catering offers and food & beverage upsells.

☑ **User activity**

Keep track of all updates made to your menus - who made the update, when, and what was changed.

☑ **Brand approved**

Brand-matched menu presentation via a mobile-friendly, custom URL.

☑ **Integration with Cendyn Proposals**

Include your menus within each sales proposal.

☑ **Real-time updates**

No need to constantly update the PDF file on your corporate website as updates can be made in real time with the click of a button.

☑ **Multi-language support**

Cendyn Catering supports multiple language options.

☑ **PDF editor**

Easily convert your menus into crisp PDFs with our intuitive PDF editor.

☑ **Custom filters and tags**

Create custom filters and tags to quickly view specific menu items, such as gluten-free or vegetarian options.
